

DASH Static Banner

A highly portable, versatile and cost effective telescopic tripod banner stand that is lightweight, very stable and simple to use. The support pole enables the user to vary the height of the graphic up to a maximum of 2.4metres. As standard we print the graphic for this roller banner on a 450gsm Scrim PVC, in certain lighting conditions this material can become slightly see-through, fine if you have control over the lighting although if you do not we recommend upgrading to a stoplight material with matt lamination - we can upgrade to this for an additional £20.00 (exc VAT).

Features

- Lightweight anodised silver components
- Wide base tripod foot
- 3 part telescopic pole for adjustable graphic height
- Option to add literature holder
- Supplied with a useful carry bag
