

# ORIENT Roller Banner

This smart roller banner is styled on a highly popular base profile, with a substantial anodised silver casing it provides the perfect combination of design with stability. As standard we print the graphic for this roller banner on a 450gsm Scrim PVC, in certain lighting conditions this material can become slightly see-through, fine if you have control over the lighting although if you do not we recommend upgrading to a stoplight material with matt lamination - we can upgrade to this for an additional £20.00 (exc VAT).

## Features

- Stylish lightweight components
- Ideal for point of sale, retail or exhibition environments
- Quick to assemble and easy to use
- Ideal for desk top or floor standing graphic displays
